

MEDICAMENT CARRIER

Abstract

936
There is provided a carrier comprising a sheet (10) having a first portion and a second portion; a retainer (20) in said first portion for containment of product; a fold in said second portion such that the second portion is foldable towards said retainer to form a cover therefor; and a join between said cover and the retainer. The carrier is suitable for the containment of a range of different products, particularly medicaments
